

About the greenbelt project under the Artemis CSR

Committed to environmental sustainability, Artemis's CSR has initiated a green belt project in collaboration with Gurugram Metropolitan Development Authority (GMDA) in the month of September 2021. The objective of the activity is to promote greenery around the operational area of the hospital by tree plantation, horticulture and landscaping of the urban green space.

Area adopted for the initiative starts from Ambedkar Chowk to the traffic signal of Arzoo apartments in sector,51, Gurugram. The work shall be undertaken on the both sides of the designated green belt area and central verge.

Status as of 29 November 2021:

- Levelling of the entire designated land is underway. (Can be seen in the picture attached)
- Garden soil on the leveled land has already been placed, along with the fertilizers

Next steps:

- Prepare the entire land for the planting the trees/plants
- Procurement of plants and planting them during the right time i.e by mid-december 2021
